### EDUCATION

2020 - 2025  
**Computer Engineering**  
Eskisehir Technical University  
GPA: 3.43 / 4.0  
2022 - 2023  
**Computer Science**  
Cracow University of Technology  
GPA: 4.0 / 4.0

### LANGUAGES

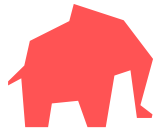

- English - Fluent
- Turkish - Native
- French - Intermediate

### ABOUT ME

I am a 4th year Computer Engineering student at Eskisehir Technical University in Turkey. I am a passionate Full Stack Developer with expertise in HTML5, CSS, SASS, TailwindCSS, JavaScript, **TypeScript**, **React**, Redux, Gatsby, **Next.js**, Strapi, GraphQL, Git, MongoDB, Firebase, Java, Python, and Django.

Currently, I am learning more about Backend Web development with Django, Spring Boot, and Express.js. The projects that I developed are in my GitHub account and some full-stack applications are published live on Netlify. I am dedicated to continuous learning and growth in the ever-evolving field of Informatics

### WORK EXPERIENCE

May 2023 - September 2023  
**Front End Developer Intern**  
ElephantApps - Istanbul

Completing education programmes and working on real-time projects using React, Redux, GraphQL, TypeScript, Git, Bitbucket, Docker, GatsbyJS and Strapi. Coding the new version of Elephantapps' official website integrated with Strapi Headless CMS.  
I acquired good communication, and problem-solving skills while working in a team environment

### PROJECTS

#### Tricount Web App: September 2023

A web app inspired by the mobile expense tracker app called Tricount. It allows users to authenticate, create groups with participants, add, delete, modify expenses, and easily manage transactions.

Used React, TypeScript, Vite, SASS, React-Router, Redux-Toolkit and Firebase

**Live:** <https://main--aquamarine-empanada-f3b8ca.netlify.app>

**Code:** <https://github.com/egemenc21/tricount-replica-app>

#### MernChat: November 2023

Designed and implemented a feature-rich chat application with authentication functionality, leveraging web server sockets for real-time communication

Used React, TailwindCSS, Express.js, MongoDB and Node.js

**Code:** <https://github.com/egemenc21/mern-chat>

#### Clothing E-commerce Website: November 2023

E-commerce website with advanced features and payment options

Used React, Redux, TypeScript, React-Router, Styled-Components, Firebase and Stripe

**Live:** <https://fanciful-syrniki-5664a9.netlify.app/>

**Code:** <https://github.com/egemenc21/crwn-clothing-e-commerce>

## VOLUNTEERING

---

### WEB PROJECT ADMINISTRATOR

February 2022 – August 2022 |  
Erasmus Student Network ESTU

Designing the structure of ESN  
ESTUs website, recruiting  
members, working as a board  
member

## INTERESTS

---

- Weight Lifting
- Music
- Climate change and sustainability

## SKILLS & EXPERTISE

---

### Frontend:

- HTML/CSS
- SCSS
- JavaScript
- TypeScript
- Next.js
- React
- Redux
- TailwindCSS
- Gatsby.js

### Backend:

- Rest APIs
- Java
- Node.js
- Express.js
- MongoDB
- Firebase
- Django
- Python
- Strapi CMS
- GraphQL

### Others:

- Git
- Linux
- BitBucket
- Object  
Oriented  
Programming
- Postman
